BOSTONAIR AFAST AOG RESPONSE TEAM

CALL OUT CHARGES

Call out charges are payable once the client confirms activation. If the call out is subsequently cancelled, call out charges are still payable.

Certifying Engineer	£5,350 per person (12hrs)
Fuel Tank / Structures Technician	£1,450 per person (12hrs)
Per Diems	£55 per calendar day/per person

Each call out charge comes with 12 hours of Engineer / Technician time included in the charge. This time also includes travel required to the location of the AOG. After the initial 12 hours, hourly rates become payable at the applicable Hourly charges (*per the table below*).

It is the responsibility of the Certifying Engineer to track the use of chargeable hours.

HOURLY CHARGE RATES

After the initial 12 hour call out charges are consumed, the below tariff applies to all hours. Per Diems are payable per calendar day on-site, even in the event of a short working day. There will be a maximum working/charge rate of 12 hours per day per person.

Certifying Engineer	£1560.00 per person (<i>up to 12hrs included</i>) £130 per hour from hour 13 onwards
Fuel Tank / Structures Technician	£840 per person, per day (<i>up to 12hrs included</i>) £70 per hour from hour 13 onwards
Per Diems	£55 per calendar day/per person

Bostonair will charge on at cost +15% all accommodation or travel needed to attend the AOG. Any mileage associated with attending the AOG will be charged at 50p per mile. The above pricing is valid through 2026.

In requesting the services, you agree to the terms of business:

Payment terms: 7 Days from date of invoice or maximum 40 days from date of maintenance service completed.

Penalties for non-payment within the terms are: 15% interest on the outstanding balance and all expenses incurred by Bostonair in connection with the recovery of any payment due.
